

DETAILED ACTION

1. Claims 39, 42-49, 52-59, and 62-68 are allowed. These claims have been renumbered as claims 1-24.
2. Claims 1-38, 40, 41, 50, 51, 60, and 61 have been cancelled.

REASONS FOR ALLOWANCE

3. The following is a statement of reasons for the indication of allowable subject matter:

The prior art of record does not render obvious to one ordinarily skilled in the art at the time of applicant's invention nor anticipate the combination of claimed elements including "an interceptor component configured to: monitor substantially continuously a second set of one or more parameters associated with the one or more database calls, and communicate the second set of one or more parameters to the analyzer component, wherein the analyzer component is configured to: receive the first set of one or more parameters from insider component, receive the second set of one or more parameters from the interceptor component, and identify the at least one process that generated the one or more database calls by correlating the first set of one or more parameters with the second set of one or more parameters" as recited in independent claim 1 and similarly recited in independent claims 49 and 59.

The remaining claims, 42-48, 52-58, and 62-68, are dependent claims, thus these claims are patently distinct over the art of record for at least the above reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
